metal ceilings and facades

AIR FLOW PANELS FOR MICRO CLIMATE COMFORT

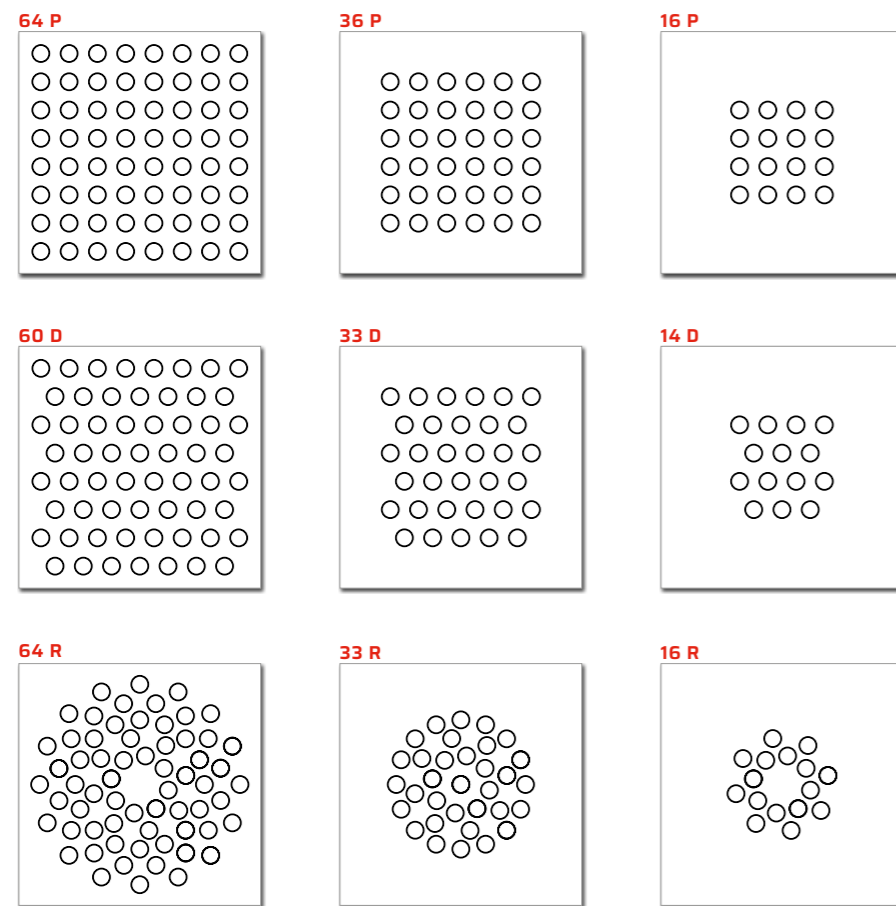

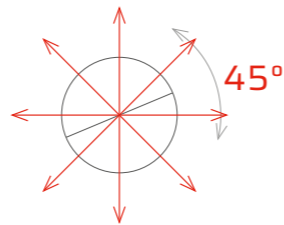

In addition to its false ceilings, IFC supplies the air flow panels with adjustable vents for air distribution.

Standard modules are made up of aluminum or steel tiles 600x600 mm with parallel, diagonal and circular nozzles.

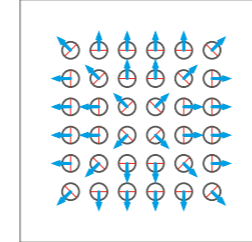

Choose among the different solutions or send us your special design.

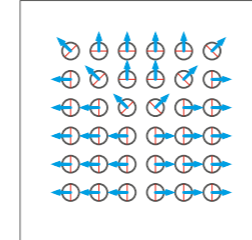

ADJUSTABLE NOZZLES

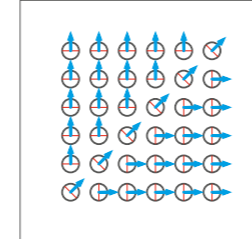

4 AIR FLOWS (STANDARD)

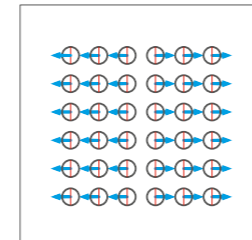

3 AIR FLOWS

2 ANGLE AIR FLOWS

2 OPPOSITE AIR FLOWS

FEATURES

Ø hole 40mm	VENTS																	
	14		16			33			36			60		64				
q _v (m³/h)	-	-	-	150	200	250	-	-	-	300	400	500	-	-	-	500	700	900
ΔP (Pa)	-	-	-	20	40	55	-	-	-	20	35	50	-	-	-	15	30	50
X ₀₂ (m)	-	-	-	2,8	3,7	4,3	-	-	-	4,3	5,2	5,9	-	-	-	4,7	5,4	6,3

Legend
 q_v = air capacity ΔP = max pressure drop
 X₀₂ = isothermal horizontal range (isotach 0.2 m/s)

Tile 600x600 mm
 Steel 5/10 - Aluminum 5/10-6/10
 White - Silver - other colours on request
